**\*\$20.00 late fee added per registrant for sign-ups received after March 5, 2021.**

Learn how to effectively use Surface EMG to demonstrate the effects of Subluxation AND take better care of your patient's.

SEMG is a dynamic way to connect the effect of motor disturbance affecting muscle function and alignment.

Patient's understand why they're hurting when they see their scan. "That's exactly how I feel...twisted and pulling in that area." Surface EMG is a reliable tool for evaluating and monitoring progress as well as patient education to achieve patient fulfillment.

Wisconsin law requires that all staff is certified in SEMG training before performing patient scans/examinations. This 3 hour course is designed to fully certify your staff to perform SEMG in Wisconsin.

Why you need this?

- It's cliché, but, "A picture says a thousand words."
- Free up valuable time for the doctor.
- Delegate and involve staff in meaningful procedures they are perfectly capable of performing with proper training.
- Add value to patient care with personalized feedback that makes sense to them.
- Elevate your office systems, patient assessments and quality of care.
- Enhance better follow through for better outcomes.
